

Team statement of Expectations and Accountability

Team Name: Team 12

Statements:

1. We agree to uphold the following with our communication (mode & timeliness):

Mode: Discord

Timeline: Meeting every two days in the first week.
Meeting everyday in the last week.

2. For Scrum roles, we agree to the following roles for iteration 1 (will change each iteration):

Scrum Master: Luxi Wang

Product Owner: Shan Qing

Repo Manager: Thanh Trung Hoai Dang

Team Member: Thanh Trung Hoai Dang, Luxi Wang, Shan Qing

3. To get the project started, we will (be specific):

To get started we decided the member roles in a team. And the repo manager will be the one create the Gitlab repo and add other members. We discuss and divide the work to everyone. The Scrum Master will organize the group members and helping to keep meetings on topic. After that, product owner has the responsibility to contact the prof and TAs to make sure everything is on track by asking question related to features, etc.. Finally, We plan schedule for the next meeting.
